

What I Haven't Seen/Don't Have/Can't Locate

Please don't get all worked up if there's something listed that you HAVE done. It is probably just an oversight on my part or has somehow ended up in a weird folder where I don't see it. Just let me know, and I will figure it out. Also, this is updated as of YESTERDAY 4/2. If you have done something since then, it may not be reflected. I am not including the plagiarism assignment or your actual research in this list. I am still looking at research. This is just a check-in to make sure I am caught up with what you have done.
